

Noticing and Naming Differences

Human beings share a lot of similarities, and also have many differences in how they look! It's okay to notice differences between people, and we can use kind and respectful language to name the differences that make us all so interesting.

Here are examples. What other words do you use to describe yourself or others?

Skin: brown beige freckled smooth warm
 tan pale dark rough cool
 olive pink light wrinkly

Hair: curly natural brown thin
 wavy afro black thick
 straight twists red short
 textured puffs blonde long
 coils head scarf gray dyed
 locs head wrap white no hair
 braids hijab

Noticing and Naming Differences (cont'd)

Drawing Tips

Not sure where to start? Try the following tips:

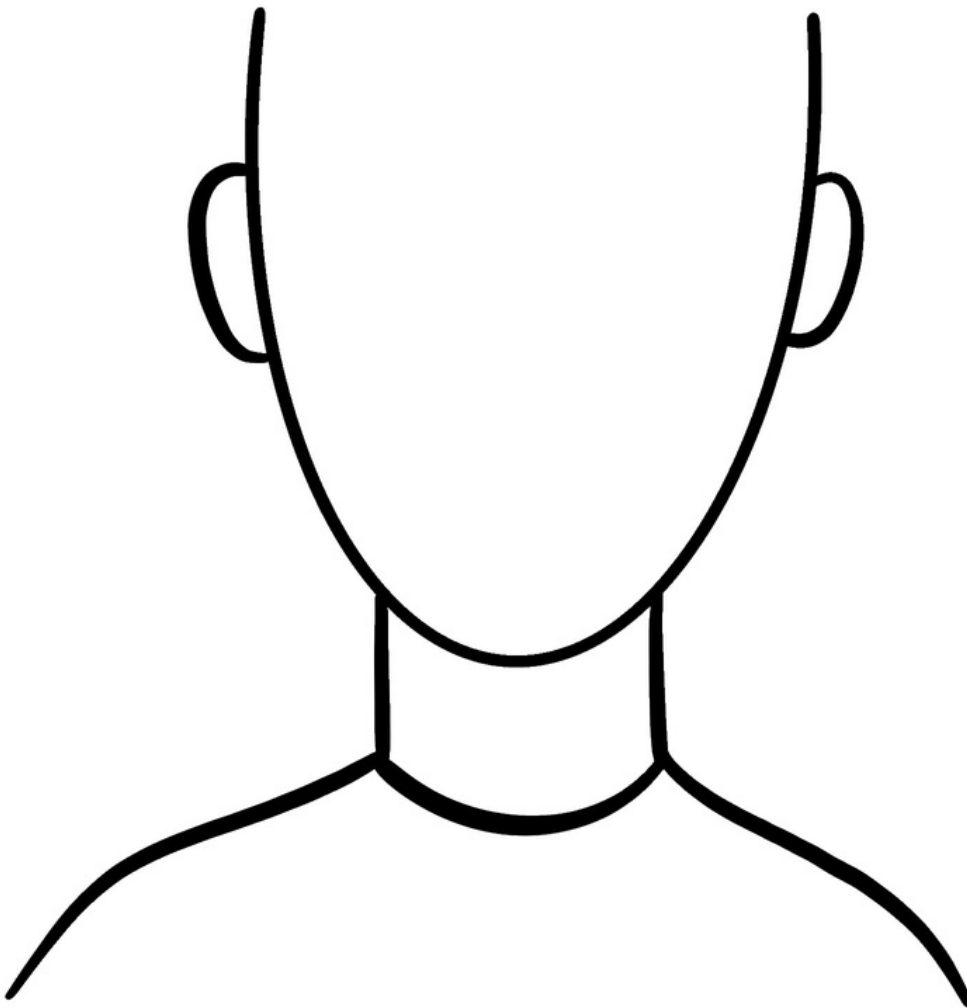

After choosing a head shape template:

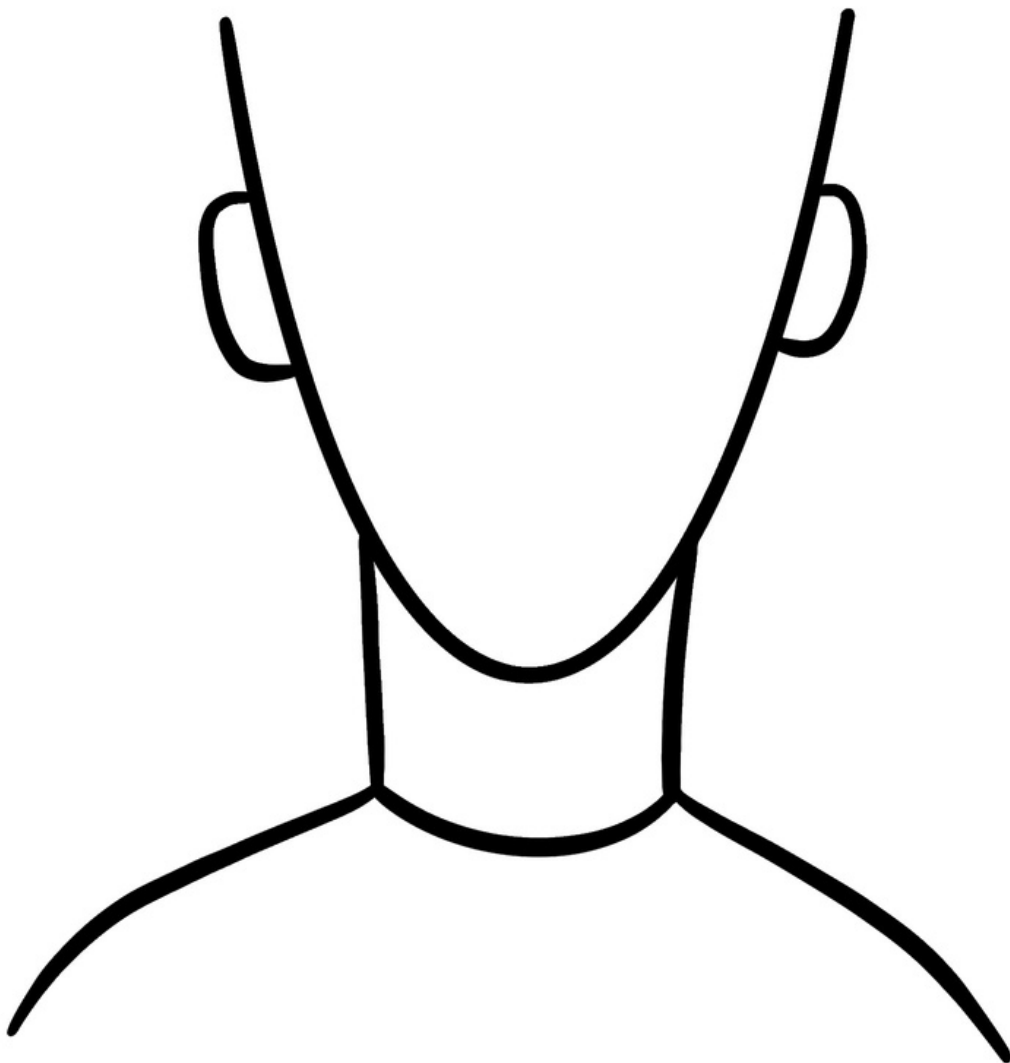

- Lightly draw a horizontal line from the tops of the ears across the face. This is where the eyes will go!
- Lightly draw a vertical line down the middle of the face. This is where the center of the nose and lips will go!

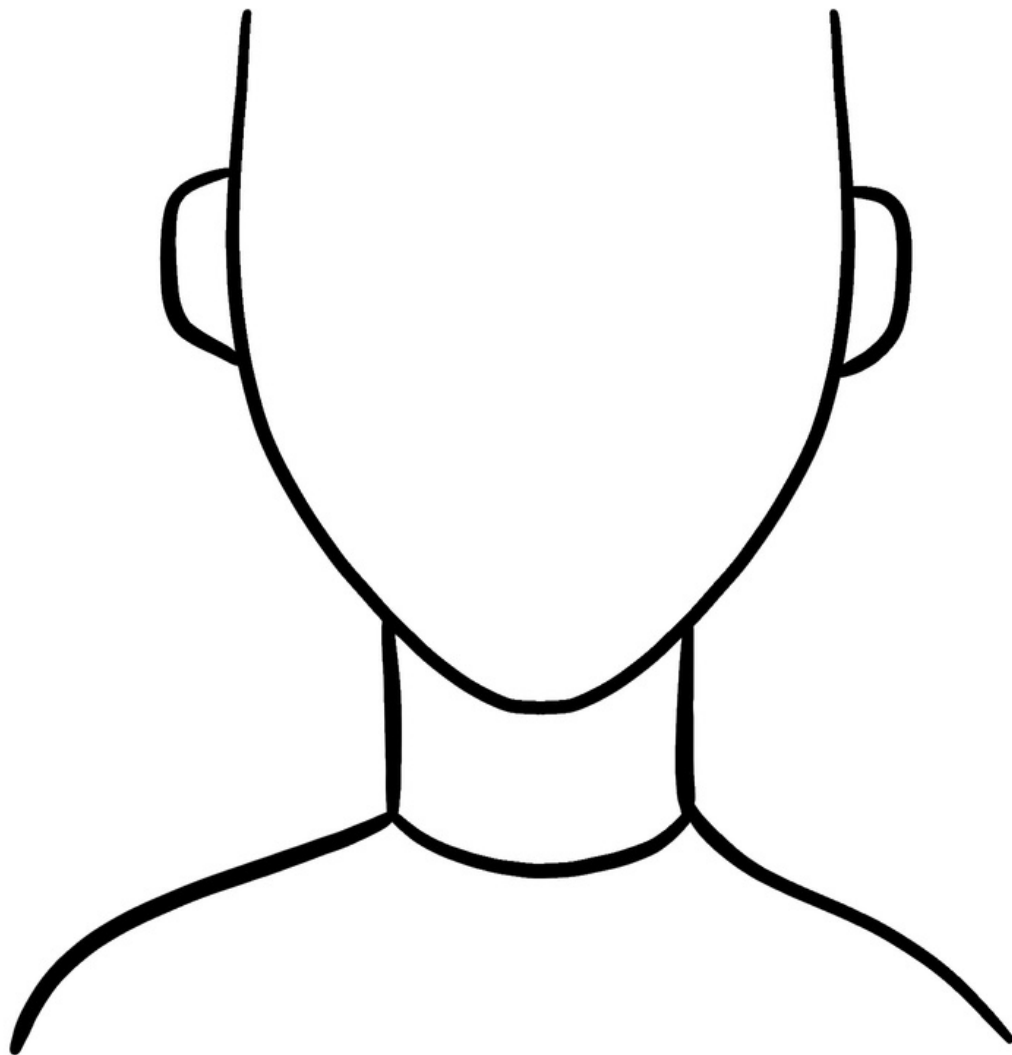

If you would like extra support breaking down a drawing into manageable chunks, consider using the grid method:

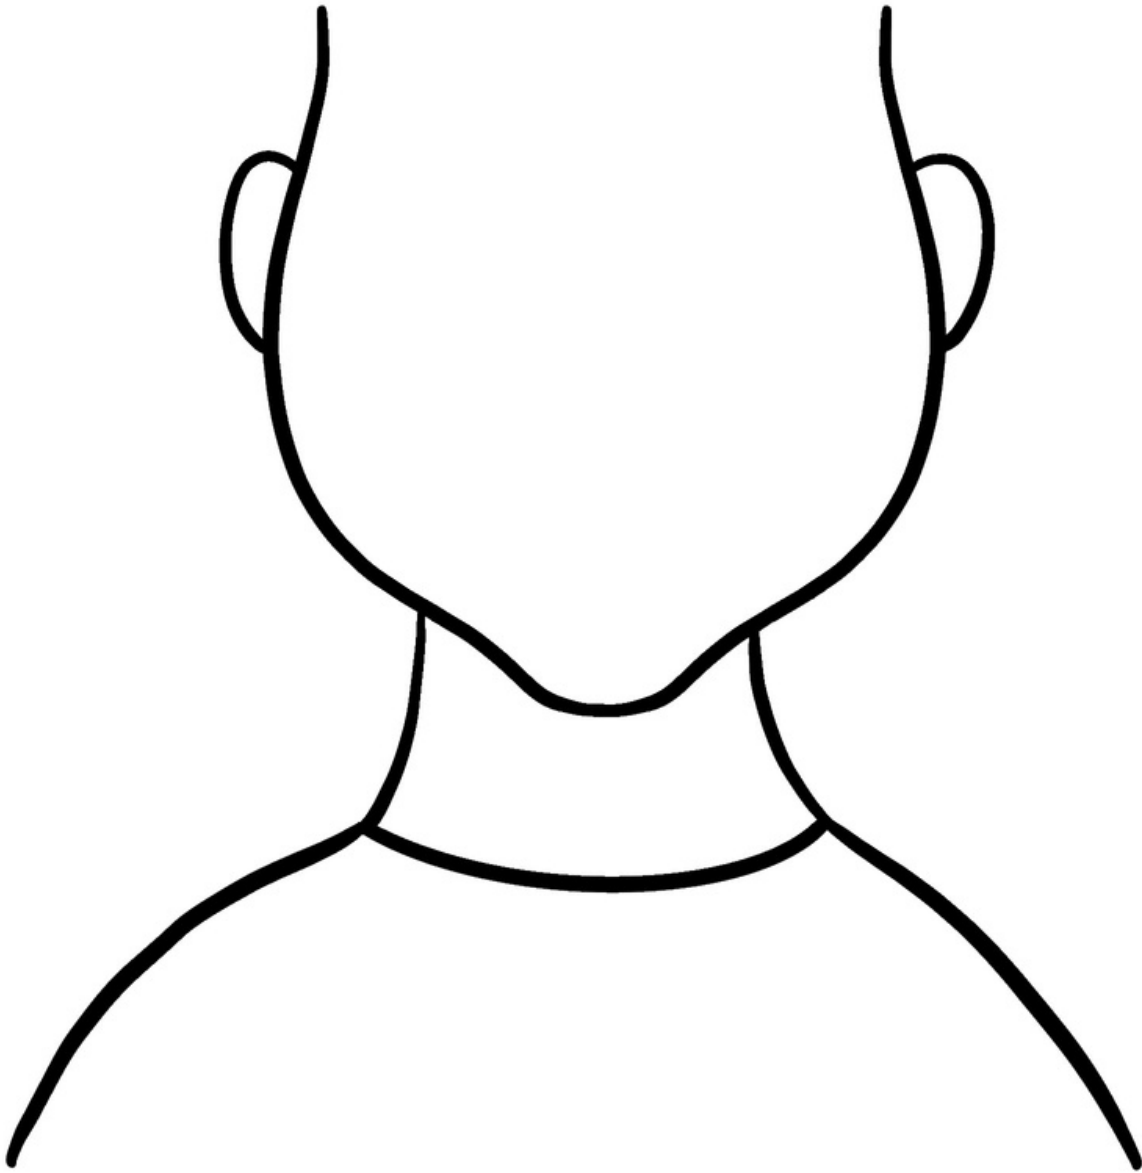

- [Click here to learn more about the grid method.](#)
- Using the grid method means having a physical photo of the drawing subject to use as a reference image. If using this method, make sure children have photos available.
- If using stable, flat mirrors for drawing selves, the grid method can be replicated on a mirror using tape!
